Utilizing knowledge of pesticide application, the individual will execute spraying activities to combat pests while adhering to safety and regulatory protocols. Proficiency in laying out irrigation systems is essential to ensure efficient water distribution and crop hydration. Gardening activities such as planting, watering, harvesting crops, and landscaping tasks are also within the scope of duties. Operating a range of battery or gas-operated equipment is required, with an emphasis on proper handling and maintenance. Furthermore, the maintenance of official vehicles and farm equipment is integral, involving regular inspections and minor repairs as needed. In addition to operational tasks, assistance with research projects, including data collection and experimental setup, may be required. Proficiency in utilizing hand tools for various farm tasks, as well as operating bush cutters and grass mowers for land maintenance, is expected. Finally, the individual will be flexible in undertaking ad hoc duties related to farm station maintenance and operations as directed by superiors.

KNOWLEDGE, ABILITIES AND/OR SKILLS:

Must have excellent communication skills both oral and written. Knowledge of pesticide application techniques and safety protocols. Ability to perform minor repairs on equipment and structures. Ability to work outdoors in various weather conditions. Ability to work both independently and with others.

EDUCATION:

Applicants claiming degrees or credit hours are required to have an original or certified copy of the documents (e.g. transcripts, high school diploma or GED certification) accompany the application.

WORK ELIGIBILITY:

Submission of completed job applications authorizes the University of Guam to seek and obtain information regarding the applicant's suitability for employment. All factors which are job related may be investigated (e.g. previous employment, educational credentials, and criminal records). All information obtained may be used to determine the applicant's eligibility
