

**PROJECT INFORMATION**

The University of Guam has an opportunity with the EDA Grant Award No. 07 79 07557 to expand its campus if we can find the right Architectural & Engineering Service provider who is interested, capable, and dedicated to making this a reality for the University of Guam.

If we find that outstanding A&E firm, this grant entails the design and construction of two new facilities that will be called "UOG's Scientific Education & Research Facilities Construction Project."

### **Certifications Regarding Federal Felony and Federal Criminal Tax Convictions, Unpaid Federal Tax Assessments and Delinquent Federal Tax Returns**

As discussed in Part I and Part II below, current Federal appropriations law contains certain funding prohibitions and certification requirements applicable to financial assistance awards issued with appropriated funds. Accordingly, the Department of Commerce will require the following certifications from prospective financial assistance award recipients (also referred to below as applicants):

#### **PART I – Certifications from Corporations**

None of the appropriated funds made available by relevant appropriations Acts may be used to issue a financial assistance to any corporation that:

- (a) Was convicted of a felony criminal violation under any Federal law within the preceding 24 months, unless a Federal agency has considered suspension or debarment of the corporation and made a determination that this further action is not necessary to protect the interests of the Government; and/or
- (b) Has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, unless a Federal agency has considered suspension or debarment of the corporation and made a determination that this further action is not necessary to protect the interests of the Government.

For purposes of the below certification, a corporation is defined as an entity that has filed articles of incorporation in one of the fifty states, the District of Columbia, or the various territories of the United States including American Samoa, Federated States of Micronesia, Guam, Midway Islands, Northern Mariana Islands, Puerto Rico, Republic of Palau, Republic of the Marshall Islands, and the U.S. Virgin Islands. (Note that this includes both for-profit and non-profit organizations.)

The below certification is required for all new financial assistance awards and for all amendments to existing financial assistance awards, that are made to corporations (as defined above) and that are funded with appropriated funds made available to the Department of Commerce pursuant to relevant appropriations Acts. This certification is further required to the extent that other appropriation Acts contain the same or substantively similar prohibitions against the issuance of financial assistance awards to certain corporations.

**Instructions:** All recipients that are corporations (as defined above) must complete paragraphs (1) and (2) below, which must be signed below by an authorized representative of the corporation. Recipients that are not corporations are not required to complete this representation.
