

## A Message from the Dean

Buenas yan háfa adai !

At the end of this Fanomnâkan 2024 semester, I want to first take this time to especially thank our student community for navigating this complex period. It is very much appreciated as we completed final exams, convocation, commencement and look forward to summer.

Together, over the last four years, we have navigated a worldwide pandemic and then a typhoon in Guam, along with the economic and social-emotional effects. I am immensely grateful for the resilience of those in this graduating group that did not have an indoor high school graduation experience of walking across a stage, that pivoted to online modalities upon entering the University of Guam (UOG) and School of Education (SOE), and that endured Typhoon Mawar and its stressful recovery period. I appreciate the work of our dedicated SOE staff and faculty, affirming our commitment to provide a robust and responsive education, inspired during dire conditions and series of events. We have been fortunate. The recent SOE convocation and UOG commencement were a testament to our steadfastness.

Finally, as I remind our local and regional community and the greater world -- UOG boasts amazing students, faculty and staff. With authentic island spirit we do a wonderful job of supporting students who make meaningful contributions to our communities. Our recent graduates will take their next steps in making the world a better place. I know these graduates -- and all of us -- can say that our university, the University of Guam, has shown us all...the way forward...Tulos Mo'na (UOG Initiatives)...propelling forward together!

BIBA and inorabuena (congratulations) Fanuchânan Class of 2024 !

BIBA SOE ! BIBA UOG !

Alicia C. Aguon, PhD

## SCHOOL OUTREACH

SOE professors and other community professionals served as judges for the Luis P. Untalan Middle School Science Fair held April 4, 2024. There were various innovative projects! Keep up the great work, wildcats! Thank you to the following professors who participated in the event:

1. Dr. Andrew Grunzke
2. Dr. Rebecca Grunzke
3. Dr. Matilda Naputi Rivera

Judges and volunteers for the Luis P. Untalan Middle School Science Fair held April 4, 2024 were recognized for their service.

## **Empowering Tomorrow's Innovators: Strengthening STEM Education and Mentoring with Dr. Cheryl R. Sangueza, School of Education Faculty**

Dr. Cheryl Sangueza, an Associate Professor and Chair of the M.Ed in Innovations in Teaching and Learning (InTaL) in the School of Education, also serves in several University of Guam STEM grant leadership positions. Her primary role is the lead for Participant Experiences and Mentoring for the Guam EPSCoR, NSF INCLUDES SEAS Islands Alliance, Navigating Home, and Sloan grants.

These grants activities build valuable cross-university connections, and partnerships with the community, region, and nation, especially with our sister Island Territories, the US Virgin Islands and Puerto Rico.

Two NSF INCLUDES summer programming that include Guam's education system and our neighboring island community college students just started! Students from our local high schools and from our neighboring islands join science lab teams (see chart below) to conduct an independent place-based STEM research study. Additional experiences include weekly mentoring seminars and an end of program presentation. Benefits include networking with a diversity of individuals, valuable research experiences, reflective discussions, a stipend, and an opportunity to complete at a national conference. For example, one high school student qualifies to compete at the International Science and Engineering Fair and our Bridge to Bachelor's students can avail of support to attend the National Diversity in STEM (NiDiSTEM) conference.

Photo credit: Science Communication. Pictured are participants from EPSCoR undergraduate, graduate, math summer program, and post-doc; INCLUDES undergraduate, graduate, high school, and Bridge to Bachelors – our neighboring island participants; and Navigating Home fellows.

*Continued on the next page*

In concert with Dr. Sangueza’s work, the School of Education proudly hosts various grant events and supports engagement in participant experiences and mentoring.

The chart on the next page shows the current INCLUDES and EPSCoR year-long lab teams with faculty researcher mentors, undergraduate participants, and the new addition of high school fellows and Bridge to Bachelor’s participants.

### NSF INCLUDES SEAS Islands Alliance:

PI – Austin Shelton, Ph.D

Co-PI’s – Else Demeulenaere, Ph.D; Cheryl Sangueza, Ph.D

### NSF EPSCoR:

PI – Terry Donaldson, Ph.D

Co-PI’s – Bastian Bentlage, Ph.D; Austin Shelton, Ph.D; Rachel Leon Guerrero, Ph.D

### NSF Navigating Home:

PI – Austin Shelton, Ph.D

Co-PI’s – Cheryl Sangueza, Ph.D; Lt. Governor Tenorio

### Alfred P. Sloan Grant:

PI – Cheryl Sangueza, Ph.D

Co-PI’s: Kristin Wilson-Grimes, Ph.D (UVI); Maria Barberena-Arias, Ph.D (PR); Theresa Melton, Ph.D (Clemson)

High school participants and their parents

## Harmonizing Futures: Dr. Dean Olah's Musical Mission at Spangdahlem Air Force Base

In January 2024, Dr. Dean Olah and his wife Molly had the wonderful opportunity to work with middle and high school band and orchestra students at the Spangdahlem Air Force Base, Germany, at the Department of Defense Education Activity (DODEA) music education clinics. They provided audition advice, private and small group music lessons, performed with students in rehearsals, and helped integrate technology into the daily music lessons.

2 January 2024

Dr. Dean Olah  
Associate Professor of Foundations and Educational Research  
School of Education  
University of Guam

Dr. Olah,

It is my pleasure to invite you for a two-day clinic presentation starting January 4-5, 2024 at Spangdahlem Middle and High School, in Spangdahlem, Germany. During this time I would like you to engage in a number of activities with our students including teaching private brass lessons (where applicable), coaching ensemble rehearsals, and share your expertise in brass performance and pedagogy.

As you know, Spangdahlem Middle School/High School is a member of the Department of Defense Education Activity (DoDEA). DoDEA's Mission is to *Educate, Engage, and Empower Military-Connected Students to Succeed in a Dynamic World*. In addition, the DoDEA Vision is *Excellence in Education for Every Student, Every Day, Everywhere*.

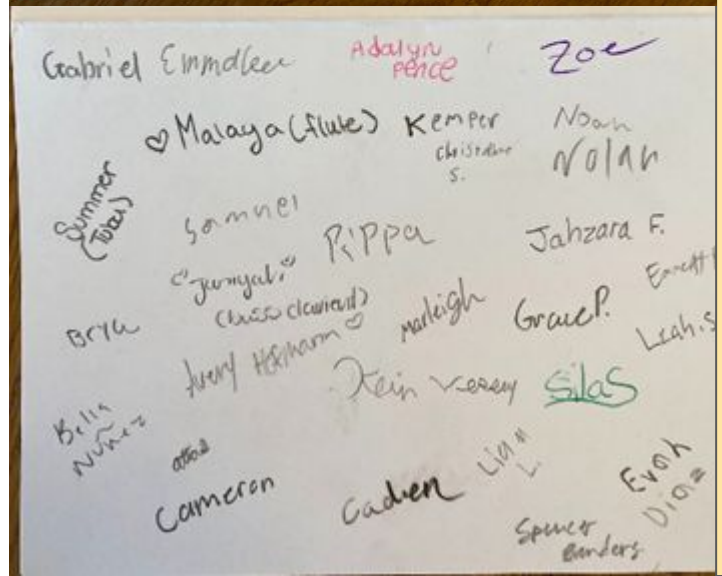

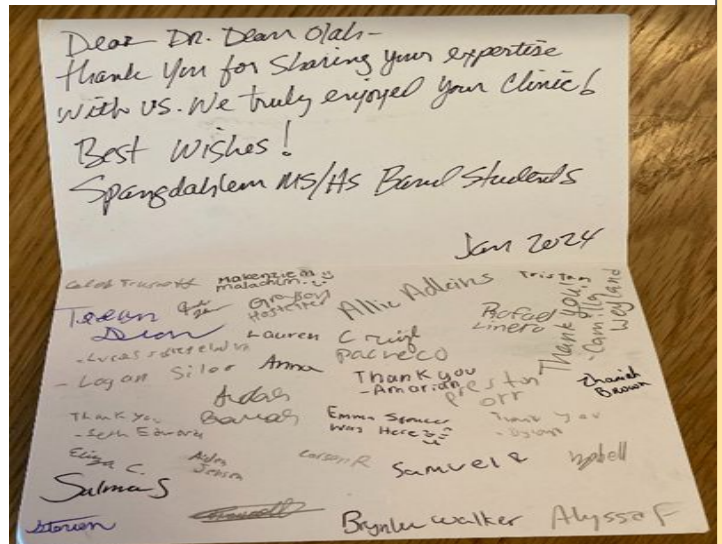

I am sure that with your professional, pedagogical, and performance background, the contributions you will make during your time will be substantial and lasting. I look forward to you joining us for a special two-day of teaching and collaboration!

Please let me know if you have any questions or need additional information.

With warm wishes,

*Ernest Jennings*

## Dr. Dean Olah: Selected NEA Research Awards Review Panelist

Dr. Dean Olah was selected to be a Research Awards Review Panelist for the National Endowment for the Arts (NEA). The NEA contacted him to participate as a panelist as a former recipient of a National Endowment with the Raleigh Jazz Orchestra (2005). He completed the application on April 29, 2024 and will be participating in orientation meetings in June and reviewing NEA applications beginning in July. Below is an excerpt from the email he received from the NEA:

Dear Dr. Olah,

I am writing to thank you for agreeing to serve on a National Endowment for the Arts (NEA) Research Awards application review panel. We would value having your perspective and expertise as part of our application review process. Serving on a panel presents a unique opportunity to see the national scope of research on the value and impact of the arts.

We have the following upcoming opportunities to serve as a NEA panelist:

[FY25 Research Grants in the Arts](#) which funds research studies that investigate the value and/or impact of the arts, either as individual components of the U.S. arts ecosystem or as they interact with each other and/or with other domains of American life. You will be assigned to read approximately 20 applications, review corresponding special attachments, and enter comments and scores for all applications. Each application requires 45–60 minutes of independent review prior to the Zoom meeting. You will have around four weeks to complete your comments and scores prior to the panel meeting.

Yours sincerely,

Sunil Iyengar  
Director | Office of Research & Analysis  
National Endowment for the Arts  
400 7th Street SW | Washington, DC 20506"

## CONFERENCE PRESENTATIONS

- March 29 - Dr. Matilda Naputi Rivera presented at the 53rd Annual National Association for Bilingual Education (NABE) Conference in New Orleans, Louisiana, alongside GDOE educators. Her presentation was titled, “Fostering Language and History through Storytelling.”

LEFT: Dr. Matilda Naputi Rivera shared her presentation titled, *Fostering Language and History through Storytelling* on March 29, 2024.

The Guam Delegation takes a pose at the Hilton Riverside, New Orleans, Louisiana during the 53rd Annual National Association for Bilingual Education (NABE) Conference. The theme of the conference is Celebrating Heritage Language and Its Role in Promoting Multilingualism, Multiliteracy, and Multiculturalism! The conference was held March 26-30, 2024. Pictured L-R: Karen Alvia, Dr. Matilda Naputi Rivera, NABE President Evelyn De Jesus, Bert Yamasta, Elmer Alves, and Barbara Tainatongo.

[ImaginationSoup.net](https://imaginationsoup.net) was founded by Melissa Taylor, a former teacher who is now a blogger and writer. She is not just any writer; according to her website, she is a children's book expert, a former award-winning bilingual teacher with an M.A. in Education, a former literacy trainer, and a passionate advocate for literacy, representation in children's literature, and high-quality education. Imagination Soup is a convenient source of wholesome and reliable children's books. It appears that she created Imagination Soup as a website where families, librarians, and educators can find great children's books and learning ideas, resources, and community.

In conclusion, Imagination Soup is ideal for parents who need guidance to begin building their child's love for reading. For every parent interested in developing their child's reading abilities, Imagination Soup will foster reading interests and develop a robust vocabulary, leading to enhanced reading skills necessary for fluency and comprehension. Scroll further down Imagination Soup's landing page, and you will find their "Playful Learning" area, where you will see reading journals, STEM activities, games, and books with educational reading and writing sheets.
